

MATIC INTERVIEW

April 2nd, 2024

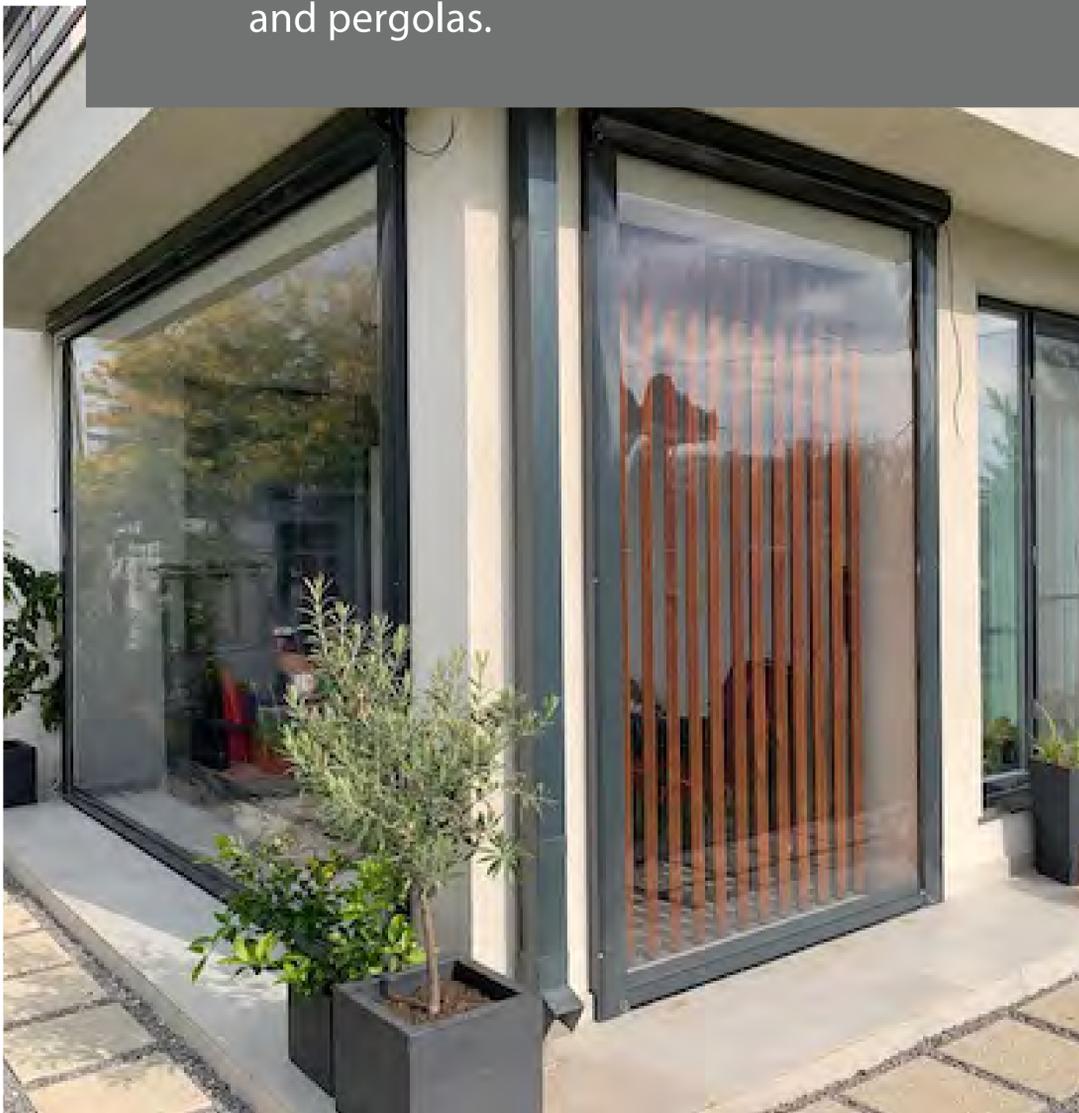

Constantin Cornel, *CEO of Eurotenda*

“GO TO THE COMPANY THAT USES THIS MACHINE, AND TALK TO THE OPERATORS”

In this series of interviews, we would like to put the spotlight on different partnerships and get insight on what it means to be part of the Matic Family.

COMPANY BIO

- _ Constantin Cornel
- _ Year of establishment of the company: 2008
- _ 9 employees
- _ Products:
Design and production of awnings
and pergolas.

Eurotenda represents excellence in the design and production of awnings and pergolas, offering customized solutions for unforgettable outdoor spaces. Founded on a passion for innovation and quality, our company combines traditional craftsmanship with modern technologies to create products that not only protect and enhance outdoor spaces, but also transform them into true extensions of personal style.

With a firm commitment to customer satisfaction, Eurotenda works closely with each customer to understand their needs and visions, ensuring solutions that exceed expectations every step of the way.

Matic: Last year, you bought both our cutting machine and sewing machines from Matic: M2 and Orion. What were the decisive factors?

Constantin Cornel: The decision was made because we want to invest in automation.

M: Please describe your experience with Matic.

CC: I think Matic is a serious company. The delivery deadline was respected by Matic. The installation was carried out within the established period.

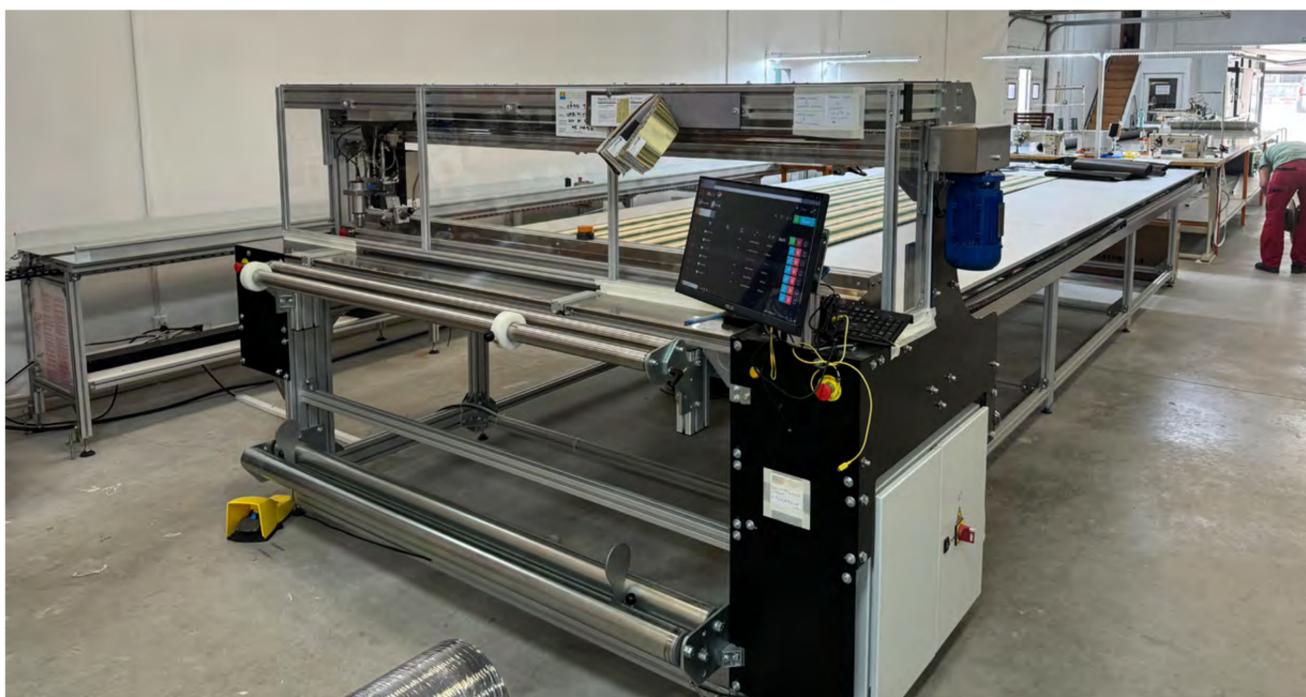

M: How have your Matic Machines helped with your production, or impacted your company?

CC: I believe that the Machines I have purchased will help me for faster delivery to my customers. Higher production accuracy. Economy of personnel in the production process.

M: What would be your message to other companies considering equipment purchases?

CC: My message would be: you have to try if you want evolution!

Thank you to Mr. Constantin Cornel and your team for your trust. And thank you to Theo for your excellent work.

These MATIC Machines, M2 and Orion, have been supplied by Grup Transilvae, a prominent Romanian company specialized in solutions and services for the digital printing industry. Grup Transilvae offers top-of-the-line equipment to meet the evolving needs of its clients.
